

At Tranquility Assisted Living Home I have had a very pleasant room in a pleasing environment in a modern, nearly new house. Temperature control and ventilation have been good with central air conditioning when necessary and with a ceiling fan in every room. Verizon cable TV service is included.

Meals have been wholesome and appetizing and provided in an airy well-lit dining area. The Home has also had birthday celebrations and certain special holiday meals. Laundry is regular and timely.

The dispensing of medications has been conscientious and accurate.

The staff have been consistently caring, kind, and cheerful.

Based on my rewarding experience I can recommend Tranquility Home to anyone considering becoming a resident.
